## **INTRODUCTION**

Congratulations on your decision to read and take action on this powerful information. Inside this simple report you are about to discover our marketing group's very easy, step-by-step method for generating a ton of traffic and for building a super-charged auto-pilot income that will pay you over and over again for the rest of your life!

The best part is, you will be paid over and over again for the same amount of work you put in today...and it will continue to grow long after you step away from it!

I never seek for you to be dependent on me in any way. You will need to do some work in the beginning but, once you understand this report and how it works, you will have more energy than you ever imagined possible to get this going and keep it going indefinitely.

**VERY IMPORTANT NOTE: DO NOT think that because this report is FREE that it is worthless. Contrary to popular belief I do not think that you have to pay for something to value it. I hope that you do not prove me wrong, for your own sake!**

BUT...

If you are finally serious about experiencing financial success online you are in the right place. This is where it all begins for you.

Forget everything you have been taught about generating cash on demand through the Internet. Most of what is sold to good people these days is a bunch of bad advice and general information. This is NOT a guide filled with general information. If you take the whole thing in, step-by-step as it is designed, you will understand the following two important points well...

- 1) You will know what you will be doing
- 2) You will know why it will work

That is my promise to you today. This is not a hobby, a money game, or some dinky little Internet program... This is a SERIOUS business venture that will make you SERIOUS money if you follow the plan laid out for you.

Let the lazy opportunity seekers waste thousands of dollars on expensive products and programs that promise the world for doing nothing. You are smarter than that right?

You would not believe how many people rush through things, sign up to every new program in pre-launch and expect thousands by the morning.

I am going to put this bluntly...

**Don't Be Foolish**, and don't give those people your money!

They are using you as a personal ATM and that has to stop. They are feeding on the positive desires you have, twisting them to their will, and playing with your mind. If you do not believe me just think of the last product you bought, or the last business opportunity you joined...

Did it help you? Are you still with that company and developing the type of business that the product or ad said you would? Have you actually learned ANYTHING about marketing?

The answer to those questions is likely NO, otherwise you would probably not have requested our free report.

The truth is, you have likely purchased several courses, bought many different Internet Marketing and money making products, and have found yourself buying another product before you have even given yourself a chance to put the previous one into action.

Why do you think that is? Is there something wrong with YOU?

No. It is not you. I want you to realize that it is NOT your fault.

BUT...and this is very important...

I felt it was only fair to let you know that once you are done with this report you WILL become 100% responsible for your success and will no longer be able to point the finger at the "Gurus" or call anything a scam ever again. That is the power of the truth.

If you are ready for this, please continue.

The fact is you are being programmed to buy, **Buy, BUY**, over and over again, without asking any serious questions about WHAT it is you actually need to succeed. You are being kept in the dark in regards to the ONLY things you actually have to learn to achieve success online.

The more "STUFF" that gets thrown at you from all different angles, the more complex and difficult the whole process appears, when in actuality marketing online and earning from that work is very simple.

The more difficult it appears, the more attached you get to the final outcome instead of the knowledge and education you need to get there.

**What I mean by that is you are being programmed to seek and purchase only the "HOPE" of achieving your goals, not the actual knowledge and education needed to help you DO IT!**

This is not your fault, but is the natural direction the mind moves into when it reaches a point of saturation and information overload.

This is not some vast conspiracy mind you, it is just how marketing works. The problem is you need to learn HOW it works or it will work you over pretty bad, and you will continue to suspend

your logic and reason without even realizing it is happening.

You need to be working for **YOU**, not some Internet or MLM "guru" who is grooming you to be their retirement fund.

To guarantee your success you need to **UNDERSTAND** what you are reading and why it will work, and **THEN** act on a proven formula or step-by-step plan. This will leave no doubt in your mind and you can rest assured that every step you take is purposeful and will be making you money.

This is what we are providing for you here.

I am not going to play with your mind, use fancy psychological warfare marketing tactics or anything of the sort. In fact, this report will be so different from anything else you have ever read it may be the only thing out there that can wake you up and get you on the right track.

It may seem, for lack of a better word...BORING.

In other words we aim to **"INTERRUPT"** the intense programming of your mind that may have resulted in your search for success online and to do this requires us to lay everything out for you in a certain way.

Everything in this report is written to reveal the blatantly obvious to you.

There are no secrets or tricks here. No one will be playing with your mind.

If we convince you to work with us you will have made the decision to do so because we make sense and you were able to make an informed and logical decision...not an EMOTIONAL or knee-jerk decision.

The obvious and blatant truth is what everyone else dances around in the hopes that they can appeal to your emotions instead of your mind. We won't do that. Now that you know this I have to issue a warning:

**WARNING: Some of this report may be hard to read and you may need to make several trips to it before you actually finish it. As I said earlier, it is written to appeal to your logic and reason, NOT your emotions. This is the exact opposite of how most marketing works, and thus it may be a bit difficult to follow things at first.**

This free report will be a VERY detailed report, and will show you step-by-step what you will have to do to become a successful entrepreneur in the shortest time possible. Really read this...It is very detailed but it is the answer to your wildest income dreams - IF you are willing to work and earn your way there.

**There are NO free rides to a successful business.**

The truth is this...**You CAN get rich quick!** Don't let anyone tell you it is not possible, because it is. You just have to **KNOW** what to do and what to expect, and that is where my marketing team comes in.

You have to start out with a realistic expectation of what "Quick" means first, or you will get burned time and time again online.

If you can completely replace your current income and then some in 12 months, that is quick! If you do not think that is quick than I know of a few slick marketers that have a product or two to sell you at around \$97 a pop...or just go to Clickbank and take your pick!

## Lets Get Real Here...

You are reading this report because you have already come to the realization that you don't need to work for someone else your entire life to be financially stable and successful. We all know how that kind of plan works (or doesn't work).

You get a **FIXED income** to do a job you are told to do, which makes the owners more money. They also will pay you as little as possible to make sure they generate the most profits possible.

There are actually companies hired by huge corporations whose sole purpose is to decide how little they can pay people and still retain them as employees!

Fine...don't get mad at the situation. It is what it is. Companies exist to profit and that is a simple expectation for a business to have. Don't try to change that because you cannot. Simply start working towards pulling yourself out of that mad world today.

I applaud you for deciding that you can make it on your own and do much better at it too. It is the entrepreneurs of the world who are the real heroes in my opinion, and you can count yourself as one of those!

I have been doing business online since early 1999 and bought my first computer that year for the sole purpose of making money with it. I have had many failures and some BIG successes. I have learned all of the tricks the gurus and big time marketers use to relieve us of our hard earned money. They think just like any business owner with employees thinks.

They ask themselves questions such as...

\* How can I get the most money out of everyone on my list?

They see people as dollar figures and are not afraid to admit it. When is the last time you heard someone refer to their list subscribers in dollar figures? Why just the other day I heard a well-known list building guru state that each person on your list should be worth a dollar to you.

Wow...what a way to value people...I mean de-value people.

Here is a very hard thing to stomach, but it is true nonetheless. The gurus build all of their products and services to bring about one result...to get you to BUY no matter what.

It is **NOT** in their interest for you to become rich, for who would they continue to sell to? Keep this fact in mind the next time some guru-wannabee sends you the next BIG product launch that you just have to purchase.

I have been through the ringer and I know what this is all about. My team and I have done the marketing research, hired the web technicians and built the necessary capital up to bring you the BEST WAY to make money online today.

Here is what we are giving you:

**1) An excellent product (actually a whole suite of products) that are in high-demand and that are easy to sell. This will not only cover the immediate side of your income but that will provide you with an ongoing residual income that continues to grow long after you step aside from it.**

**2) A super-charged and efficient method to sell this product suite. We leave nothing for you to guess about. We tell you step-by-step what you need to do, teach you**

**exactly how to set it up AND provide you with a detailed daily marketing procedure!**

**3) Teach you exactly how to put 1 and 2 together in the best way possible to create a marketing system unmatched in the industry, and that can be worked with minimal time each day.**

**4) Lastly, we teach you how to combine all of the above, easily, and in a step-by-step fashion to become financially free in as little as 12 months!**

**KEEP READING...** Remember not to speed read through this guide or skim over it. If you listen and let it soak in now you won't be confused afterwards or have to read it over and over again. This is **YOUR** future we are talking about here so do yourself a favor and Pay Attention!

To get the system working for you will only require 1-3 hours per day. You can work more or less depending on your schedule, but to reach the financially free level within 12 months you will need to put in at least 10-15 hours per week. We will also provide you with extra steps if you wish to speed up the process and put more into it than that. YOU decide!

As long as you are consistent and complete your minimal daily marketing chores you will be successful. That is the way our system works. You will not see success quickly if you skip a few days and then try to make it all up over the weekend. You will understand why in a moment.

### **Can I Make It Online?**

I shouldn't have to tell you why the Internet is the way to go to fully experience REAL freedom and financial prosperity, but I would like to speak about it a little. It will help drive home some important points about our business model later on.

You have to know that an extremely large amount of people are looking to the Internet to provide an extra income everyday. The numbers are HUGE right now and continue to grow at astronomical rates.

**The Internet will be the business marketplace of the future, of that there is no doubt. It will be generating revenues in the Trillions of dollars within a few short years according to current trends, so you are in the right place at the right time!**

Building an Internet business is a piece of cake compared to trying to build a brick and mortar business out in the real world. If you know what you are doing you can pretty much write your own paycheck AND set everything up to run automatically. You don't even have to be working to get paid! Yes, the make money while you sleep thing is real.

That, coupled with the fact that one can start, build, and maintain a million dollar business on the Internet with very little start-up capital (Under \$200 or less) makes the choice a no-brainer.

Over the years I have learned that with all of the promises of instant wealth and turn-key automated riches, people really only find success online in one of two ways...

**1) They start early, waste a TON of money and time, and then through trial and error, they stumble upon a working model that builds them a fortune (That is the horrible story of my Internet experience)...BUT they have to also have a desire so strong it keeps going through all the pain!**

OR...

**2) Someone takes a person by the hand and tells them EXACTLY what to do. They meet someone they can trust and decided to follow their lead to success! They find a mentor who is willing to TEACH and EDUCATE.**

That is exactly what my team is here to do for you. Don't be fooled by the testimonials of the guru's and their ilk. I know how that stuff works. These guys take one or two people, give them access to their private marketing lists, joint venture partners, and million dollar advertising systems and make successes out of a couple people.

They do not actually teach them how to really do it themselves. It is just for show so they can say: "See...even a no-name beginner can make it huge with my success system!" That is the process I am sorry to say.

I even know a guy that created fictitious people out of thin air and said he helped them build million dollar businesses! I saw the people he supposedly helped one day on a stock photo site. When I called him on it he said to me, "it was just another product, man. That's all it is..."

What a crock! Don't be fooled by all of these \$47-\$97 ebook success systems. Most all of them are CRAP and that is the truth.

These guys don't even write these things themselves. They hire some technical freelance writer to do it, pay them a thousand dollars or so and then sell it to you at \$97 a piece!

Just let it all go. You have to refuse to play in this fantasy land.

You are in good hands now. We will help you steer through the Internet mumbo jumbo and keep you on track. You have my word on that.

Each step you take with us will do something spectacular for you!

Look, I don't care if you have been around for awhile and are just about FED UP, or you are just starting and need some guidance.

**It is your turn now to get the real scoop. The future belongs to you no matter where you have come from!**

Our product research goals were simple. Our product had to meet a simple set of criteria before we would even begin to look it over. It had to have a huge number of things going for it already...

## **Product Research and Development**

Our product research goals were simple. Our product had to meet a simple set of criteria before we would even begin to look it over. It had to have all the following things going for it to even be considered...

### **THE PRODUCT**

- 1) It had to be attractive to the majority of people looking to earn an extra income from home.
- 2) It had to be part of a growing and familiar industry people would recognize immediately. This means that it would already have appeal that we would not have to create (market value) AND this appeal would be growing by leaps and bounds everyday with no sign of stopping.
- 3) And lastly, when sold, it would have to create both short-term and long-term residual income gains, with the main focus being on long-term residual income.

Also, the product we chose had to be combined with an efficient and super powerful marketing system.

We knew we could have the most in-demand, hot product that would make us a lot of money, but if we could not bring it to the market that needed it efficiently and effectively, AND teach others how to do it too, it would be worthless.

This is the BIGGEST hurdle to overcome online no matter what product you are trying to promote. It is also where all of my colleagues and I originally failed miserably, and the area that we eventually perfected.

The perfection of the marketing system and the duplication process is the key ingredient and thus we gave a lot of thought to it.

### **The Marketing System**

- 1) It had to be effective (that is a given.)
- 2) It had to be time efficient since the majority of people who need to use it do not have a ton of time to market and promote their business while working a full-time job, juggling kids and family time etc.
- 3) It had to be simple to set up, simple to maintain, and simple to explain to anyone. This all boils down to duplication. It needs to be able to duplicate itself with ease so no one has to spend all of their precious time working with downlines who don't get it and probably never will.
- 4) Lastly, it needs to be totally automated. I am talking push-button simplicity. You push this, click that, copy and paste something else. This kind of simplicity and automation is KEY and IS available online. We need to make use of the best that technology has to offer. That way you only have to provide YOU as the missing piece to the puzzle.

The whole point is to provide as much ease as possible, but be able to produce results over and over again. Not a small task to accomplish I know.

## **BUT, we did it!**

It just took a ton of work on our part.

See, we could not FIND anything already out there that matched all of our specifications so WE

BUILT IT OURSELVES, and we even made your success virtually guaranteed if you can follow simple directions!

We have created ads and super targeted marketing pages for you, we tell you where to place them, AND we show you EXACTLY how to put it all together to make the most of everything available to the online entrepreneur. We have left no stone unturned!

We have created highly targeted marketing pages, websites and advertisements that already produce results, and through our strategic partnerships and one-on-one support networks, we will be able to monitor your progress AND help you reach all of your income goals!

We will also continue to pay for the best marketing research and systems research to bring you the BEST cutting edge tools you will need to stay ahead of the game now and far into the future.

We have done the hard part. All you have to ask yourself is this...

## **Can YOU pay attention and follow directions?**

If you can follow our simple process you will succeed!

If you are willing to put forth 1-3 hours per day towards completing your daily tasks, and increasing your reach and the time spent building your business when you are able, financial freedom is completely possible to you within 12 months!

If you are not willing to invest 1-3 hours per day into this process you may as well not even continue. Just put this report somewhere on your hard drive and forget about it. At least you didn't pay for it! At that point all you did was waste your time reading this.

You have to make a choice now.

What will it be? We have provided you with what we believe is the fastest path towards financial security. Will you take initiative and follow through?

The difference between successful people and professional dreamers is one simple thing...ACTION. The choice is yours. You can read on or delete this now. Just decide!

## **The Results Are Finally In...**

Our product focuses on serving an **UNDER-Served market**, and a market that will continue to grow and will remain under-served for years to come.

It is important to know that it is precisely this marriage between an under-served market

and a product made specifically for that market, that creates fortunes.

Online there are two under-served markets that we will be focusing on.

**1) Those people who own computers and want to make money with them, AND...**

**2) Those who have tried to make money with their computers but who have yet to succeed at this endeavor.**

You may be thinking that this market is actually OVER-saturated, especially if you have been in the second group mentioned above, trying to get something going. You would be mistaken in that assumption. Think about it this way...

If you were being served with the answers to this question wouldn't you have been able to act on them and succeed by now? Of course you would. So what is holding you back? The answer is simple...

**Your needs are not being served as well as thousands upon thousands of others, who just like you want to earn money with their computers. In fact, if you understand what I told you about in the introduction to this report, you will realize you are not just being under-served, but hindered!**

Those familiar with the "Internet Marketing" niche can all agree that there are no shortage of opinions about how to make money online. One day Google will make you rich with AdSense and Adwords! The very next day it is on to something else...maybe this \$47 dynamo ebook will help, or maybe this coaching program or free list building course. Bah!

Most of the hype artists and "spin-meisters" online are more interested in extracting money from you than helping you make money.

And if you seek the help of a spinmeister on how to make money online they can only teach you how to do the same garbage they do.

But if you are reading this right now it is likely because you have already figured that out...or you are just starting and will be saved the pain of having to figure it out. Either way your problems are solved. We have the answers you seek.

**So, how does this product fit ALL of the criteria mentioned?**

We serve these markets with exactly what they need...answers. We provide the answers, serve their needs, and then continue to train them and make them financially free. That is what successful marketing is all about!

The name of the company that provides all of the technological tools we need, is called **The New Plan Network**. This is a 5+ year-old company so you can rest assured that it is solid, stable, and licensed to do business LEGALLY all over the globe.

Think of **The New Plan Network** as your massive Internet Marketing Tool-set. The NPN

provides all of your training and the product suite to help make you a successful Internet entrepreneur.

Most importantly, all of the products and marketing tools we provide you at The NPN are produced "in-house" which means they are all systems fully integrated with The NPN. Only NPN members will ever have access to these tools.

We built the tools and have full control over them. We are not re-selling someone else's tools. We know our own products intimately inside and out, and have built them to work FOR you.

Please go and take a SERIOUS look at the massive tool-set we provide our members by watching the video below.

### **Watch this backoffice preview video:**

As you can see clearly, there is no other place online where you can get such an amazing array of must-have Internet marketing tools for such a low monthly fee.

The NPN has always been about providing our customers and business associates with an extremely AFFORDABLE, top level marketing system and tool-set.

The products that we have built for you, and that we offer all under one roof, would normally cost hundreds of dollars per month if purchased and maintained separately. That in and of itself is an amazing thing...

### **But it gets better...**

Imagine getting substantial rewards from simply sharing these tools with others who desperately need them! Imagine getting paid not once, but over and over again from the same amount of work, with NO ceiling on your ability to profit, just for sharing this information!

Now imagine having the ability to double, triple, or even quadruple your current monthly NPN income immediately without any extra work on your part! You have to see this to believe it, but **The NPN's amazing Ladder System Payplan** allows you to do just that!

With **The New Plan Network** and our marketing systems, you have everything you want and need all in one place and all available at an amazingly affordable price. Don't you feel you deserve it?

We Say NOTo the current trend of bloated and high-cost marketing systems and products. We know that everything you need can be built and offered for less because we have done it. That is what we set out to do over 5 years ago and this is what we have done.

Never Forget What I am Going To Say In The Next Sentence Below, Because Within It Is A Major Secret To Success Online...

## **Your hard earned money should be used for advertising to grow your business, not on the actual business itself!**

This is just a basic overview of what The New Plan Network has to offer at the product level. We will get more in depth and show you EXACTLY

Remember...As HOT as The New Plan Network's product suite is at this time, the product is completely worthless without a perfected means to distribute it or the knowledge of HOW

to use it.

### **So don't get too excited yet. :-)**

You'll find out what it all means for you later on. This is only one part of the entire system we have put together for you.

### **Let's talk about The Marketing!**

#### **The Marketing System**

Listen...selling is the way of the past. And if you want to succeed in network marketing and help others to succeed, selling is the LAST THING you should be doing! We should expect much more robust and powerful marketing systems that will **ATTRACT** the right people to us.

They are available so how come you don't hear about them too much?

For one, they are usually **VERY** expensive and the people who can afford them never share them. And those that CAN build them charge incredible prices for them because they can. A pure and effective attraction marketing system is a rare find, thus you would generally spend hundreds of dollars per month just to house one yourself on your own servers and web space.

If you can find one that is affordable, they are generally affordable because they only serve one small segment of the market you are trying to reach with your business offer.

What does this mean for you?

Well, while the masses have limited reach the **BIG GUNS** are quietly cleaning up behind the scenes. They can reach more people than you can and it takes them a fraction of the time to do it!

Then you are left with the scraps. Success is a difficult thing to find when 97% of the people are fighting over the scraps.

Well, enough is enough! It is simply time to make this type of technology and marketing available to everyone.

We will provide you with the tools to outmatch anyone, AND we will continue to spend

money on research and development of new systems and marketing processes to keep you there! We aim to stay on top and we aim to take all of our partners there with us.

### **But once again, it gets better...**

We won't just take our partners with us, we will allow our partners to offer the same systems to their partners, on to infinity! Everyone that buys from you will receive the same exact **Powerhouse Marketing Systems** you have, so you will make even more money from their successful efforts as well!

You won't need to spend time training them... **we do that for you.**

That means you have more time to grow your own business and simply manage your downlines, not build them for others. In essence, you will create an extremely large army of well-equipped and well-financed business associates who will know exactly what do to.

### **Do you think that would increase your income? You bet it would!**

Our marketing system works very well, and due to its extremely targeted nature, you will only be promoting to people who are already interested in what you have to offer.

We have an overall engine that powers the entire marketing system, as well as

supplemental systems that work in conjunction with the main system. This is how we are able to target so well and reach only interested prospects for our business.

As mentioned previously, our marketing system was built to meet certain criteria, with one of those main criteria being able to help someone reach financial freedom within 12 month's time.

This marketing system uses revolutionary attraction marketing techniques to deliver highly qualified and extremely serious prospects right to you! **If you follow our directions you WILL succeed.**

## **So What Makes Our Marketing System Different?**

**1) We target The RIGHT Prospects From The Start**

**2) We Teach You How To Become A Leader (Not just pose as one...)**

**3) We Allow You To Build YOUR Own List (And we train you on how to optimize and monetize that list too!)**

**4) Provide Step-By-Step Training On Individual Advertising Mediums and Marketing Platforms Through Our Unique "Marketing Blueprints Series"**

**5) Provide Built-In Sales Funnels and Back-End Income Streams (We allow you to fully brand everything to maximize your profit potential, including all marketing blueprints and training!)**

**6) We Provide You With A Built-In Multi-Program Downline Builder (Do you have a resource or product you would like to share with YOUR downline that we**

**have not fully covered in our training? No problem. We have automated that process for you too!)**

**7) We provide complete 24/7 Support (This support is provided through a variety of different channels, including email, phone, private members forum, Instant Messaging and more. We know how annoying it is to have a question and have to wait 48 hours or longer for an answer.)**

And Much Much More! (Really, this is only the tip of the iceberg...)

To us, servicing YOU is the most important part of our business. We know it is our members who must be successful for us to be successful and we never forget that...EVER.

I mean come on! The whole entire network marketing industry is based on this one premise of helping others achieve their goals.

**But most importantly, Global NPN works NOW!**

We constantly update our systems to stay ahead of everyone and everything, and we will keep up with them for you! This is no pre-launch mumbo jumbo company. The NPN will be here today, tomorrow, and well into the future. We pay now and have been paying our members, without fail for years.

In fact, we take pride in NEVER having missed a commission run. We have never paid our members late. We figure if a company cannot perfect the means of paying their members then they might as well have never opened their doors for business.

All of your marketing needs will be covered by The NPN.

All of your marketing training will be covered by The NPN.

The system is so vast and so unbelievably different than anything people are used to seeing online, that it can be overwhelming for those who join without a support system in place.

We have solved that issue by creating our **step-by-step guides**. If you follow them you will be doing exactly what will be most beneficial to you within The NPN system and you won't have to spend all your time trying to figure it out! It will work for you quickly and easily.

We designed this marketing system and all of our tools to help you generate leads and sales from Day ONE. It just plain works, and we stand by it 100%.

This is just a brief overview of The NPN. We will show you more later on and give you the exact price of our systems, how much we will pay you for recommending us to others, and how you can become financially free, within 12 months, simply by referring ONE new member per month to The NPN for 12 months!

Yes, it really is as simple as that. Can you bring in one new member per month? If you can, and if you allow us to teach your downline to do the same, you will be financially free in 12 months!

When you see how small of an investment The NPN actually is you will understand how simple it will be to share it with others and easily bring in at minimum, one new business partner per month.

**Also, keep in mind that everything that comes with the The NPN system you will be trained on. You will NOT have to spend tons of time learning how to use everything on your own.**

We do all of that for you. Once you are making a solid income from our marketing blueprints, you can spend some time learning about how to increase your marketing reach and expand your business on your own.

Until then, we show you how to set everything up, what to do and when to do it!

So now you know a little about The NPN and some about our initial product of choice...enough I hope to be able to make a decision anyway.

**So it finally comes down to this...**

What will you do now? Where will you go from here?

Allow us to sweeten the pot a bit and add even more value to our marketing system. The strategy is so very important. We can give you the best product to generate immediate cash...we can give you the Internet's #1 marketing system to help you sell this

phenomenal product, but what exactly will you be doing day in and day out to make this all successful?

In essence...What Is Our Angle and Strategy?

This is where most people fail and drown in Internet marketing...AND it is exactly where we come in and perform our rescue mission. :-)

Here is where **EVERYTHING** will come together and where it will all make perfect sense. If you are tired of reading go ahead and stop. Come back to this next section when you are fresh and ready to continue. It would be a **TOTAL SHAME** for you to gloss over ANYTHING in this free report, but it would be truly **DEVASTATING** to miss the overall strategy as we are about to present it on the next page.

## **Putting It All Together: Here Is Where The LIGHT Goes On...**

**I am about to let you in on a VERY BIG secret...**

**I don't care** what your primary business is, and neither does anyone else. Did you catch that?

**NO ONE CARES** what your business is, what it does, or even what products you sell.

Once you understand this you will already know 90% of what it takes to be a great network marketer. The remaining 10% is all execution.

Since absolutely no one actually cares about your primary business opportunity, the first step to

success is to stop telling everyone about it in a way that resembles throwing up all over them!

Here is what I mean...

Lets say you are at a party and I walk up to you, hold out my hand and introduce myself like this:

"Hi there, my name is Adam Bauthues! You should really look into owning your own home business. I have an amazing opportunity available that you should really look into. We sell an amazing product that everyone wants and needs and you can get in on this thing at the ground floor. We have no

competition, the pay plan is incredible, we are currently in pre-launch, and if you get in fast you stand to make a ton of money before we even launch to the world. We are poised to become the next Microsoft. You will be set for life!"

I can't imagine you would be too keen on doing business with me now would you? You would probably be looking for the nearest exit, afraid that you just walked into an Amway convention!

Everyone is screaming and crying for your attention in network marketing. They are literally "puking" their business all over you every chance they get, just like in the example above, only they are doing it with their companies replicated website.

Doesn't that just about describe every website you have ever come across for the most part? No wonder so few become successful in this industry. Everyone is just throwing up on each other!

If they are not throwing up all over each other, they sound as if they are a member of some eerie cult that is operating just a tad outside of your "reality" meter.

This is actually a good thing for you.

The good news is it is very easy for you to stand out when 97% of the people around you are squawking like chickens, puking their business all over the place and acting like zealots.

You will be like a two-legged person competing in the One-Legged 100 Meter Dash!

**This is where The NPN comes in. We help you walk right in and make the sale while everyone else is hopping around just trying to get in the front door!**

The NPN is all about YOU and YOUR business. We provide you with all the tools you will need to be successful in this industry, and we also train you up in how to become a marketer and how to think like an entrepreneur.

Then, we help you build your own circle of influence and help your new recruits see the benefit of doing business with you in the long term when they are ready to do so.

And of course, we pay you to share this highly affordable training with others. Basically we pay you to build your business.

Imagine for a minute that you are able to put only highly qualified, motivated, and fully-trained distributors into your business who actually have money to invest in their own growth.

Do you think that would give you the upper hand?

They in turn become successful, which then makes you even more successful! This is the win-win situation everyone talks about online but never really gets to experience.

Here is a brief look at how we do this:

1) We provide you with your very own series of professional lead capture and squeeze pages, specifically designed to target individual advertising mediums, connected to a complete follow-up system that builds YOUR list, not ours.

2) We provide you with step-by-step guides, showing you exactly what needs to be done everyday, as well as complete guides for getting everything set up properly.

3) We provide you with pre-written ads for any type of advertising medium you can think of, designed by professional copywriters and created exclusively for us!

4) We provide you with total support through our members forum, email, Instant messenger, telephone, whatever you need to keep you on track and performing at your best.

5) We will provide you with everything you need to know, as well as allow access to special sections of our site and advanced trainings for those wishing to take this into overdrive.

If you have any experience online you should know what a value all of this is.

If you did it alone you would have to pay \$10 for a domain name, around \$100-\$197 for a dedicated server to host everything (that's monthly), and an experienced web designer and marketing expert to create your pages (**this can cost anywhere from \$100 per page to \$8000 per sales letter!**)

You would also have to go through tons of technical training and marketing books just to learn the basics. This doesn't account for your continuing education when things change all of a sudden... And change is a constant online. What works today may change quickly and you will need someone to guide you and help you adapt.

That is only a few of the things you would need if you did this on your own.

**Believe me there is a lot more to it than that!**

This will by far be the most valuable service you will ever receive in your entire Internet marketing career.

Like any Internet marketing company we have expenses. BUT we believe so highly in our marketing system, and your success if you do what we tell you, that we are making your investment in The NPN very small.

So with that here is what you have been waiting for...

**OUR New Plan Network Fees and Compensation**

Honestly, this is where you are really going to flip your lid...

You can get started today with The NPN for only \$10.75 per month...

No, that is not a typo...

So here is the deal. I do not expect you to believe anything I say here in regards to the compensation plan that The NPN offers. It is Out of This World and will seem too good to be true...but I assure you it is not.

The best way to show you is to send you to my New Plan Network website and let you read about it yourself and play with the easy to use income calculator provided there.

To learn all about the compensation structure and how the amazing Ladder System Pay Plan works, please visit my NPN website below. When you click the link it will open in a new window so you won't lose your place in this report.

**Once you click the link below all you need to do is click on the "Make Money" tab to read everything about the compensation structure that The New Plan Network offers. I think you will be amazed!**

**[Click Here To read All About Making Money With The NPN](#)**

Here is the breakdown of this awesome compensation system and why it will make us all some serious money if we dilligently promote it...

**1) High monthly referral bonuses on personal referrals: \$5 - \$150 depending on what upgrade level members are at.**

This Ladder System Pay Plan is unlike anything I have ever seen!

**2) Monthly commissions on a forced 5X5 downline**

**3) 100% monthly matching bonuses on all personal referrals**

Just take your time here...play with the calculator and do some serious thinking. I am certain you will not find a more robust pay plan nor will you find a more reasonably priced product to bring to market and earn from!

**But I have one more amazing thing to show you...**

Do you think with the marketing systems we have built for you, and with all of the training and support we provide you could bring on one new member per month? Even if it takes you a month or two before you can do this consistently, do you feel that is attainable?

Just so you know, many of our members bring on 5-10 times that number every month thanks to our highly duplicateable system and comprehensive training and support, and I KNOW you can, at minimum, grow your NPN downline By ONE every month.

We practice a principle here at The NPN called "**The Power Of One.**" Most aspiring Internet

marketers are not shown the power of leverage in this way and thus they are never able to frame realistic goals for themselves.

So I want you to look at "The Power of One" and see the numbers in action. Numbers do not lie.

**[Click Here and Watch the Video To See "The Power Of One" In Action!](#)**

The video and graph found at the Power Of One link above is meant to show you how easy your journey to financial freedom can be if you just focus and get to work! This is not rocket science at all and this would be income you were earning whether or not anyone followed you into your primary business!

Just imagine...If you were making \$50,000 extra per year, 12 short months from now... what would your life be like? Is that enough to replace your current income? If not, what is? Look at that graph and find out!

Read this next part carefully:

**If you could help a couple other people do this too, do you think you would have a business partner for life? Do you see how The NPN is designed to be the most profitable and advanced funded proposal in existence?**

Think about this please because it is YOUR life to live and no one else's.

You can significantly change your life quickly through The Power Of One. I have and I know you can too. So what is stopping you?

Everyone talks about being wealthy, but how many people who talk about it actually do something? And how many people that ARE willing to do something don't know WHAT to do or when to do it?

We estimate that most people fall into the second category above. Those in the first category, who won't do anything no matter what you give them, won't even finish this report so don't worry about dead beats coming into your business.

Remember, this report was written to drop them like flies early. Only people who really crave the truth and real knowledge will be reading this right now.

**HEY, that means YOU! Good job! :-)**

It is the real and honest people who are willing to work for themselves and who understand that it takes a strong desire and a willingness to succeed who we want to work with. If you are reading this now, I can guarantee you fall into that category and now, maybe for the first time, you are receiving the answers you seek.

So many people say they are willing to do anything to succeed, and all they need is someone to show them what to do. Well, here it is. You have everything you will ever need and more. We are practically handing it to you...

**But the question remains...What will you do with it?**

We leave you with this inspiring quote from the movie The Secret, followed by THE LINK that will change your life forever.

**"We believe that You are Great ::: that there's something Magnificent about You. The Moment You begin to Think Properly :::That there's something that is Within You ::: There's Power within You that is Greater than The World ::: It will begin to Emerge ::: It will Take Over Your Life ::: It will Feed You ::: It will Clothe You ::: It will Guide You ::: Protect You ::: Direct You ::: Sustain Your Very Existence:::..... ::: If, You'll Let It ::: :::The Universe will respond to The Nature of Your Song :::"**
